

CMOS NOR Gates

High-Voltage Types (20-Volt Rating)

Quad 2 Input – CD4001B Dual 4 Input – CD4002B Triple 3 Input – CD4025B

■ CD4001B, CD4002B, and CD4025B NOR gates provide the system designer with direct implementation of the NOR function and supplement the existing family of CMOS gates. All inputs and outputs are buffered.

The CD4001B, CD4002B, and CD4025B types are supplied in 14-lead hermetic dual-in-line ceramic packages (D and F suffixes), 14-lead dual-in-line plastic packages (E suffix), 14-lead small-outline package (NSR suffix), and in chip form (H suffix).

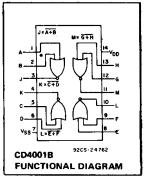

CD4001B, CD4002B, CD4025B Types

Features:

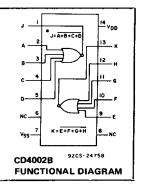

- Propagation delay time = 60 ns (typ.) at CL = 50 pF, VDD = 10 V
- Buffered inputs and outputs
- Standardized symmetrical output characteristics
- 100% tested for maximum quiescent current at 20 V
- 5-V, 10-V, and 15-V parametric ratings
- Maximum input current of 1 μA at 18 V over full package-temperature range; 100 nA at 18 V and 25^oC
- Noise margin (over full package temperature range):

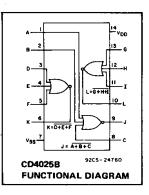

1	v	at	V _{DD} = 5 V
2	v	at	V _{DD} = 10 V
2.5	۷	at	V _{DD} = 15 V

Meets all requirements of JEDEC Tentative Standard No. 13B, "Standard Specifications for Description of "B" Series CMOS Devices"

RECOMMENDED OPERATING CONDITIONS

For maximum reliability, nominal operating conditions should be selected so that operation is always within the following ranges:

CHARACTERISTIC	LIM		
CHARACTERISTIC	MIN.	MAX.	UNITS
Supply-Voltage Range (For T _A = Full Package Temperature Range)	3	18	V

MAXIMUM RATINGS, Absolute-Maximum Values:

DYNAMIC ELECTRICAL CHARACTERISTICS

At $T_A = 25^{\circ}C$; Input t_f , $t_f = 20 \text{ ns}$, $C_L = 50 \text{ pF}$, $R_L = 200 \text{k}\Omega$

CHARACTERISTIC	TEST CONDI	ALL'	UNITS			
		V _{DD} VOLTS	TYP.	MAX.		
Propagation Delay Time,		5	125	250	1	
^t PHL ^{, t} PLH		10	60	120	ns	
		15	45	90		
		5	100	200	1	
Transition Time,		10	50	100	ns	
tTHL, tTLH		15	40	80		
Input Capacitance, CIN	Any Input		5	7.5	pF

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third–party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
