

## Solid-Electrolyte TANTALEX<sup>®</sup> Capacitors Hermetically-Sealed, Axial-Lead

### FEATURES

- These high performance, hermetically-sealed TANTALEX<sup>®</sup> capacitors have set the standard for solid-electrolyte tantalum capacitors for more than three decades.
- High capacitance, low DCL, low dissipation factor and exceptional operating stability.
- Performance and reliability have been proven in commercial, industrial and military applications.
- Available in four case codes and capacitors are supplied with plastic-film insulation.
- Terminals are solid, tinned nickel wire leads.
- The Military equivalent to the 150D is the CSR13 which is qualified to MIL-C-39003/01.

### PERFORMANCE CHARACTERISTICS

**Operating Temperature:** - 55°C to + 85°C. (To + 125°C with voltage derating.)

**Capacitance Tolerance:** At 120 Hz, + 25°C. ± 20%, ± 10% standard. ± 5% available as special.

**Dissipation Factor:** At 120 Hz, + 25°C. Dissipation factor, as determined from the expression  $2\pi fRC$ , shall not exceed the values listed in the Standard Ratings Tables.

#### DC Leakage Current (DCL Max.):

**At + 25°C:** Leakage current shall not exceed the values listed in the Standard Ratings Tables.

**At + 85°C:** Leakage current shall not exceed 10 times the values listed in the Standard Ratings Tables.

**At +125°C:** Leakage shall not exceed 15 times the values listed in the Standard Ratings Tables.

**Life Test:** Capacitors shall withstand rated DC voltage applied at + 85°C for 2000 hours or derated DC voltage applied at + 125°C for 1000 hours.

Following the life test:

1. DCL shall not exceed 125% of the initial requirement.
2. Dissipation Factor shall meet the initial requirement.
3. Change in capacitance shall not exceed ± 5%.

### DIMENSIONS in inches [millimeters]

CASE CODE	WITH INSULATING SLEEVE*			LEAD SIZE	
	D	L	J (MAXIMUM)	AWG NO.	NOMINAL DIAMETER
A	0.135 ± 0.016 [3.43 ± 0.41]	0.286 ± 0.031 [7.26 ± 0.79]	0.422 [10.720]	24	0.020 [0.51]
B	0.185 ± 0.016 [4.70 ± 0.41]	0.474 ± 0.031 [12.04 ± 0.79]	0.610 [15.490]	24	0.020 [0.51]
R	0.289 ± 0.016 [7.34 ± 0.41]	0.686 ± 0.031 [17.42 ± 0.79]	0.822 [20.880]	22	0.025 [0.64]
S	0.351 ± 0.016 [8.92 ± 0.41]	0.786 ± 0.031 [19.96 ± 0.79]	0.922 [23.420]	22	0.025 [0.64]

\*When a shrink-fitted insulation is used, it shall lap over the ends of the capacitor body.

**STANDARD REEL PACKAGING INFORMATION**

**1. Component Leads:**

- a. Component leads shall not be bent beyond 0.047" [1.19mm] maximum from their nominal position when measured from the leading edge of the component lead at the inside tape edge and at the lead egress from the component.
- b. The 'C' dimension shall be governed by the overall length of the reel packaged component. The distance between flanges shall be 0.125" to 0.250" [3.18mm to 6.35mm] greater than the overall component length.

**2. Orientation:**

- a. All polarized components must be oriented to one direction. The cathode lead tape shall be a color and the anode lead tape shall be white.

**3. Reeling:**

- a. Components on any reel shall not represent more than two date codes when date code identification is required.
- b. Component leads shall be positioned between pairs of 0.250" [6.35mm] tape.
- c. The disposable reels have hubs and corrugated fiber board flanges and core or equivalent.
- d. A minimum of 12.0" [304.8mm] leader of tape shall be provided before the first and after the last component on the reel.
- e. 50 or 60 lb. Kraft paper must be wound between layer of components as far as necessary for component protection. Width of paper to be 0.062" to 0.250" [1.57mm to 6.35mm] less than the 'C' dimension of the reel.

- f. A row of components must be centered between tapes ± 0.047" [1.19mm]. In addition, individual components may deviate from center of component row ± 0.031" [0.79mm].
- g. Staples shall not be used for splicing. Not more than 4 layers of tape shall be used in any splice area and no tape shall be offset from another by more than 0.031" [0.79mm] non-cumulative. Tape splices shall overlap at least 6.0" [152.4mm] for butt joints and at least 3.0" [76.2mm] for lap joints and shall not be weaker than unspliced tape. Universal splicing clips may also be used.
- h. Quantity per reel shall be controlled so that tape components and cover shall not extend beyond the smallest dimension of the flange (either across flats or diameter). Once the quantity per reel for each part number has been established, future orders for that part number shall be packaged in that quantity. When order or release quantity is less than the established quantity, a standard commercial pack is to be used.
- i. A maximum of 0.25% of the components per reel quantity may be missing without consecutive missing components.
- j. Adequate protection must be provided to prevent physical damage to both reel and components during shipment and storage.

**4. Marking:**

- a. Minimum reel and carton marking shall consist of the following: Customer Part Number, Purchase Order No., Quantity, Package Date, Manufacturer's Name, Electrical Value, Date Code, Vishay Sprague Part Number and Country of Origin.

## Notice

Specifications of the products displayed herein are subject to change without notice. Vishay Intertechnology, Inc., or anyone on its behalf, assumes no responsibility or liability for any errors or inaccuracies.

Information contained herein is intended to provide a product description only. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Vishay's terms and conditions of sale for such products, Vishay assumes no liability whatsoever, and disclaims any express or implied warranty, relating to sale and/or use of Vishay products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright, or other intellectual property right.

The products shown herein are not designed for use in medical, life-saving, or life-sustaining applications. Customers using or selling these products for use in such applications do so at their own risk and agree to fully indemnify Vishay for any damages resulting from such improper use or sale.
